14th Annual Septic System Pump-Out Contest

Pump out or upgrade your
septic tank and qualify to win
cash or other great prizes!
Drawing will be held after
Patuxent River

Appreciation Days

October 6-7, 2018

***The Calvert County
Environmental Commission
needs your help
to clean up the Bay!***

Why “Pump for the Bay?”

Too much of the nutrient nitrogen is polluting the Chesapeake Bay, Patuxent River and Solomons Harbor. This nitrogen increases the growth of algae. Algae clouds the water and prevents sunlight from reaching the rooted aquatic plants necessary for a healthy bay. When algae die, the decomposition process uses up oxygen that fish, crabs, and other marine life need to live. Together, these factors create poor water quality and dead zones.

We all use the water in Calvert County— we swim, sail, fish, catch crabs, use motorboats, and more. It’s important to keep our water clean because a healthy bay means a healthy Calvert County!

What does this have to do with my septic tank?

Sewage contributes up to 25% of the excess nitrogen in Solomons Harbor. Even when operating properly, traditional septic tanks do not treat for nitrogen. It is released into groundwater and eventually enters the Bay. You can help reduce this nitrogen pollution by pumping your septic tank out more frequently (every three to five years) or switching to a model that converts nitrogen to gas that enters the atmosphere rather than the groundwater.

What’s in it for me to pump or upgrade?

- You will be helping clean up the waters of Calvert County.
- There will be more fish and crabs.
- You could win money to offset the cost of pumping/improving your septic tank.
- You could win prizes and gift certificates donated by local businesses that care about the Bay.
- By emptying your septic tank more frequently, you might avoid the high cost of repairing a failed septic system.

Who’s eligible to win?

Any resident of Calvert County who pumps or upgrades their septic tank between the dates of October 7, 2017 to October 5, 2018.

When’s the drawing?

The drawing will be held at the October Environmental Commission meeting. Winners will be notified by letter.
